DESCRIPTION

The first phase of the development is under construction and when complete will comprise 9 industrial / warehouse units of steel portal frame construction with metal and timber clad elevations beneath a pitched roof.

The different units will benefit from clear eaves heights of between 6.2m and 8.2m, electric level access loading doors and Units 1A and B will have yard depths in excess of 23m. Rooflights will be installed on each unit and the rest of the roof areas will have a solar PV system providing green electricity to the development.

The units will be built to achieve an A level EPC rating.

Externally, the units will have the dedicated spaces shown in the schedule of accommodation table and there will also be generous communal car parking provision including disabled parking spaces. Each unit has one double EV charger and there are also 8 communal EV charging points.
