Market Commentary

The market for logistics and industrial property remains strong in the South East. Logistics and industrial take up is above its medium term average and demonstrates resilience with occupier demand still strong for well-located modern buildings. Chichester is also seeing a number of new developments coming to the market which should deliver rents into the low teens and some freehold values for smaller units under 2,000 sq ft approaching £300 per sq ft CV.

Therefore, the subject asset provides a modern multi let logistics/industrial investment opportunity at an attractive yield and AWULT.
